## **27 years 126 days (or immortality on a shoestring)**

**This year Matt Harvey turns 27. An inauspicious age for many artists. The pressure of fame has taken some of the best what will it do to Matt? Oh that's right, nobody knows who he is. 27 years, 126 days is a guide to looking at mortality and being remembered.**

This is the second solo show from comedian Matt Harvey (Disbelief is a form of belief, Being Pirate Gandhi, There will be lol). In this show, he will be exploring the road to that undiscovered country from which no traveller returns (death). Can we live beyond our own mortality? How would that be possible? Or failing that, can we just skip over this whole death business all together? Come and explore the lighter side of being remembered.
