The History Operation

“I’m taking her through seams in reality to 1985... or wherever she wants to go...”

The History Operation-

Imagine if the past could be accessed by seams stitched into reality and just by pulling a thread you could travel back through time.

A play written by Tim Wotherspoon that delves into the limitless possibilities of time travel and struggles of reality.

Stepping in and out of bygone worlds, a woman struggles to make sense of her life in the present, her friend struggles to make her a semi-sensible path back, and her brother struggles to make sense on any level whatsoever.

The History Operation must be, simply, a matter of perspective; if it is ever going to work...
