theSpaces 2010 debut LP "Shapes, Words & Other Suggested Truths" is a musically dynamic, psychedelic journey that moves seamlessly from spacey alt-country, singer songwriter tunes through to epic and thunderous percussive instrumentals.

Likewise the album's story follows the protagonist 'Monkey' across polar worlds of emotional awakenings through to crushing confusion, lyrically touching on subjects such as religion, science, evolution and the understanding of our place within the universe.

Created by Melbourne Producers Sean Crowley and Luke Postill, the duo have joined forces with musicians and visual artists from across Australia to bring the album to life as part of the 2011 Melbourne Fringe Festival.

Surrounding audiences with 360° screens, audiences will experience the world as seen through the eyes of Monkey, via the visual works of Director, Brett Ludeman ([storybottle.com](http://storybottle.com)); Animator/Artist, Lin Mei ([linmeistudio.com](http://linmeistudio.com)); Visual Installation Artist, Keith Deverell ([greyspace.com.au](http://greyspace.com.au)); Actress, Tegan Crowley ([tegancrowley.com](http://tegancrowley.com)) and Photographer/Film Maker, Carmine Caputo ([creativeterra.com](http://creativeterra.com)), as well as visual creations made by the band themselves.

The eight piece collection of multi-instrumentalists that originate from many of Melbourne's top live acts, have recreated theSpaces album brilliantly, using an assortment of sounds and instruments from electronic jigerey-pokery and string sections though to duel drummers and guitar sounds from outer space.

Join 'Monkey' in this unique psychedelic journey for six nights only at The Space Dance and Arts Centre in Prahran.
